EDUCATION

2024 – PRESENT

ATU Sligo, Ireland

Mechanical Engineering (Hons)

2018 – 2024

Coola Post Primary School

Riverstown · Final Grade: 513 pts

2011 – 2018

St. John's National School

Sligo

HARD SKILLS

CAD & Design

- SolidWorks, CATIA, AutoCAD
- Technical Drawing & GD&T

Manufacturing

- 3D Printing & Tool Design
- Material Selection

Mechanical

- Assembly, Diagnostics & Troubleshooting
- Mechanical Measurement

Simulation & Code

- MATLAB/Simulink, ADAMS, FluidSIM
- Python, C++
- Excel, Word, PowerPoint

SOFT SKILLS

- Works well under pressure
- Detail-oriented & well-organised
- Proactive, strong initiative
- Reliable work ethic
- Teamwork & communication

PROFESSIONAL SUMMARY

Second-year Mechanical Engineering student at ATU Sligo with hands-on experience in CAD design, mechanical assembly, and engineering projects. I regularly build, maintain, and repair motorcycles, developing strong practical problem-solving and troubleshooting skills. Previous industry experience at G. Bruss GmbH provided direct exposure to precision manufacturing processes and quality control. Proficient in SolidWorks and CATIA, with working knowledge of Python and C++.

WORK EXPERIENCE

Ordered by relevance to a mechanical engineering internship

06.2025 – 08.2025

Internship / Machine Operator

G. Bruss GmbH Dichtungstechnik, Sligo

Main duties (Bazler Operator):

- Operated and monitored machines to meet high-speed production targets.
- Loaded/unloaded materials and performed quality checks on products.
- Adjusted settings, fixed minor faults, and reported major issues.
- Performed basic machine maintenance and cleanliness upkeep.
- Recorded output, downtime, and inspection data.
- Followed safety protocols during fast-paced night operations.

04.2021 – 06.2021

Internship / Mechanic's Assistant

Seamus McDaniel Motorcycles Ltd., Sligo

Main duties:

- Diagnosed and repaired motorcycles.
- Prepared motorcycles for service through thorough cleaning and detailing.

10.2021

Internship / Engineers Assistant

G. Bruss GmbH Dichtungstechnik, Sligo

Main duties:

- Maintained accurate records and organised files.
- Performed cleaning tasks to ensure a tidy and safe environment.
- Provided assistance to colleagues as required.

LANGUAGES

English Native
Polish Native (bilingual)
Italian Beginner, improving

INTERESTS

- Motorbikes / cross riding
- Motorcycle building & maintenance
- CAD design & 3D printing
- Programming
- Import & sale of motorcycles

Available upon request.

WORK EXPERIENCE (CONT.)

08.2023 – 10.2024 · 06.2021 – 08.2021

Merchandiser

Solv-x Products Ltd. · Rabia Yasin & Sons, Sligo

Main duties:

- Stocked products on shelves and managed product ordering.
- Maintained and refreshed displays to reflect current promotions and seasonal trends.

04.2025 – 06.2025 · 09.2024 – 01.2025 · 12.2021

Shop Assistant / Warehouse Staff

Dunnes Stores · Herimano Euro Limited · The Range, Sligo

Main duties:

- Maintained organised stock levels and replenished merchandise.
- Ensured a clean and safe environment through regular cleaning.
- Collaborated with team members to achieve shared goals.
- Unloaded and loaded deliveries safely and efficiently.
- Sorted, labelled, and stored stock in correct locations.
- Picked and packed items accurately for store distribution.

10.2025 – PRESENT

Delivery Driver / Store Assistant

Domino's Pizza

Main duties:

- Delivered customer orders promptly and ensured high customer satisfaction.
- Assisted with food preparation, order packaging, and general store operations.
- Supported team during busy periods and followed food safety and hygiene procedures.

KEY ACADEMIC PROJECT

Filament-Spool Re-Winding Machine

ATU Sligo Design Engineering Project (DEP 201 & 202) – 1st Place, ATU 2nd-Year Expo

- Collaborated within a 3-person engineering team to design and build an automated filament re-winder for 3D-printing spools, awarded 1st place at the ATU 2nd-Year Expo.
- Designed the gear train, filament guide, and spring-loaded tension control system in SolidWorks and CATIA.
- Verified structural integrity via ANSYS FEA (safety factor above 15) and implemented Arduino/micro:bit control logic.
- Ensured the design met EU Machinery Regulation 2023/1230 throughout development.
